

Modern, Sleek Design

Durable powder coated finish

In-stock and ready to ship

Fast, easy installation

ErectaStep Architectural Stair kit delivers best in class engineering and construction.

ErectaStep is the world leader in stair case design and manufacturing. All of our metal spiral and mono stringer stair kits are engineered and manufactured in our 250,000 square foot South Carolina facility.

Our Spiral stair and Mono stringer stair kits are constructed of lightweight, corrosion resistant aluminum with a durable powder coated finished. All of our aluminum stair kits are designed for easy assembly and installation for both the professional contractor or the DIY home owner. No special tools required!

Our unique FLIP TREAD design allows you to customize your treads by installing your own tread material, wood, tile, concrete etc.
